PRECISION IN
EVERY MOULD

Accumax Loops, Needles & T-Spreader

Accumax Loops, Needles & T-Spreader

Single-use disposable products are essential but need to be manufactured with immaculate detail. Any discrepancy in manufacturing can lead to inconsistency in volume delivery. A lot many products that lack in prudent QC lead to measurement errors.

Accumax delivers sterile inoculating loops, needles and T-Spreader adhering to 10^{-6} SAL (Sterility assurance level). These are designed for precise sample / media transfers while maintaining the accuracy in subsequent measurements. And since they are colour coded they are easy to identify, minimising the chances of error.

Moulded With Meticulous Perfection

Manufactured In Class 100K Clean
Room On A Fully Automated
Production Line

Dual Side
Usage Design

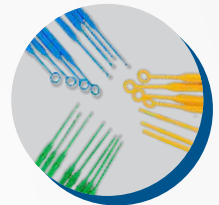

Ultra Smooth Loop
Surface For Easy
Streaking

Free Of Lubricants And
Electrostatic Charges Makes
Safer For Every Microbial Culture

Color Coding For
Easy Identification
Of Products

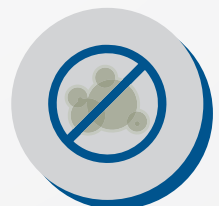

"T" Design For Easy
Manipulation And
Spreading Samples

Adhering To 10^{-6} SAL
(Sterility Assurance Level)
Quality Standards

Single Usage Of
Product Ensures
No Cross Contamination
